BACKGROUND

FLOW's mission is to provide a forum for Latinos to promote inclusion and representation in leadership positions in water agencies to influence decision making for the benefit of all Californians. With the recognition that water issues are critical for California and that Latinos are disproportionately impacted by these issues, it is imperative to ensure that Latinos are "at the table" in water policy discussions, engagement and decision making. To help accomplish this, there is a need for a forum where Latino water leaders can promote inclusion and representation of Latinos in leadership positions in water agencies in California. This is where FLOW can make a major contribution to positive change.
