**BACKGROUND**

The Legislative and Policy Platform (Platform) spans the two-year California legislative and Congressional sessions.

Updates to the 2025-2026 Platform include:

- Advocating for liability protections and external funding for Chromium 6 (Section 7)
- Increased funding and resources to address cybersecurity threats (Section 11)
- Continued support for collaborative approaches through legislative initiatives on Voluntary Agreements (Section 12); and
- Advocating for reforms to reduce the costs of infrastructure improvements (Section 16)
- A map of CVWD's service area

The guiding principles of the Platform is to remain a flexible, broad document that provides staff and the

government affairs advocates with the necessary direction to adopt positions and advocate on legislative, regulatory, and administrative matters without requiring a formal vote or presentation to the Board of Directors. Staff will continue to keep the Board and/or the Legislative Committee informed as significant developments throughout the legislative and administrative processes.
